

Executive Recruitment & Appraisals Inc.
"The Okanagan Valley's Recruiter of Choice"

CIVIL ENGINEER
(Kelowna, B.C.)

Our client, *CTQ Consultants Ltd.*, is an industry leader in managing and resolving issues related to urban land development. As one of the fastest growing multi-disciplined engineering firms in the Okanagan Valley, this Kelowna based company has an exceptional, long-term career opportunity for an Intermediate to Senior Professional Civil Engineer.

*You are an ambitious engineer with at least 5 years of practical experience in, infrastructure and road design, including modeling capabilities for water, wastewater, and stormwater networks. You have a passion for design, and as an integral member of the design team, you will provide expertise and innovation for some of the largest and most challenging projects undertaken in the valley's rapidly expanding land development marketplace. You will have the opportunity to advance your career within an environment of respect and collaborative consultation. **CTQ Consultants** is dedicated to the training, development, and retention of their employees*
